Creating Reservations:
Setting Times
A starting and ending date must be chosen for your reservation. To save your reservation, click on the **Current Reservation** button at the top of the screen. You need to choose both a **Start Time/Date** and an **End Time/Date** before the reservation can be saved.

A red box labeled **Problems** may appear underneath the reservation editing box to show any problems or conflict that may occur when you choose the dates and times for your reservation.
